

WEBSITE DISCLAIMER

Last Updated: May 2026

Take Capital for Traders (<https://www.takecapft.com>) is an educational platform. Through our website, we provide access to trading simulations. All trading activity carried out by our customers is simulated or virtual trading only.

1. Educational Platform Nature

We explicitly clarify that:

- We are NOT a broker, financial institution, or traditional proprietary trading firm.
- We do NOT provide access to live financial markets.
- We do NOT accept deposits or handle real funds for investment purposes.
- ALL trading is conducted in simulated environments.
- We are NOT regulated by financial authorities, as we do not conduct regulated investment business or issue financial promotions.

Our sole purpose is to provide simulated trading environments for educational evaluation.

2. Simulated Trading Disclaimer

All accounts provided through our platform are purely simulated trading accounts. Although these accounts use real-time market data to replicate live conditions, they do not involve real money transactions or actual financial risk.

Due to the simulated nature of our platform:

- Results may differ significantly from live trading environments.
- Performance metrics are hypothetical.
- Natural market mechanics (such as slippage, widened spreads, and execution delays during high-impact news) are simulated and applied to accounts, but do not involve real capital deployment.
- Past performance in our simulated environment does not guarantee future results in live trading.

3. No Investment Advice

The content and services provided are strictly for educational and informational purposes. We do not offer financial advice, investment recommendations, or engage in regulated investment activities.

4. Liability Disclaimer

UNDER NO CIRCUMSTANCES shall Take Capital for Traders LLC be liable for any direct, indirect, incidental, consequential, or other damages (including lost virtual profits) arising from your use of our simulated trading environment. Your use of the Site and services is entirely at your own risk. As outlined in our General Terms and Conditions, our maximum total aggregate liability to any user shall never exceed the evaluation fees paid by that user in the preceding twelve (12) months.
